[Crown Commercial Service](#) supports the public sector to achieve maximum commercial value when procuring common goods and services. In 2021/22, CCS helped the public sector to achieve commercial benefits equal to £2.8 billion - supporting world-class public services that offer best value for taxpayers.

"We are delighted to be named a supplier on G-Cloud 13 as we already work with a number of local and central government bodies to deliver significant value to the public sector," said Emmanuelle Hose, group vice president and general manager for Europe, Middle East and Africa at Rimini Street. "Our proven services and approach present multiple benefits to clients - not only significant savings and ultra-responsive services delivered by a growing pool of UK-based and global engineers, but the ability to redirect limited and valuable resources to transformation initiatives. With continued economic challenges on the horizon, Rimini Street can be a key strategic partner as more UK public sector organizations look to balance today's IT operating costs with tomorrow's investment needs at a time of potentially tighter public spending."

Rimini Street offers UK public sector a smart path to transformation

Rimini Street is already working with a number of local and central government bodies in the UK, including [Kent County Council](#), [Nottinghamshire County Council](#) and [Waltham Forest Council](#), helping them extend their SAP and Oracle application lifecycles to maximize returns on their existing investments, save significant costs and enjoy a more responsive, robust service model for their Oracle and SAP systems.

Rimini Street services cover application and database services beyond software support, including:

- [Rimini Street Managed Services](#) for Oracle, SAP and Salesforce application management
- [Rimini Street Database Management Services](#) for commercial (Oracle, SAP, Microsoft and IBM) and open source (Postgres, MySQL, MongoDB, MariaDB) databases
- [Rimini Protect™](#) delivers software security services and solutions to help architect, implement and manage both a holistic and layered security model
- [Rimini Street Interoperability and Integration Services](#) provides ERP support and advisory services to help clients cut through complexity and address integration and interoperability challenges
- [Rimini Street Professional Services](#) offers a variety of short- or long-term project-based consulting services and capabilities, such as assessments, best practices, roadmap planning, configuration, software resource planning, and development services
